## Educational Aids Distribution Project 2019

Immadihalli Government High School is located in Whitefield Bangalore. The Headmaster and teachers requested us to provide educational aids and charts for the children for enabling a better learning of their lessons. Children can easily understand, learn and remember when lessons are taught with the help of pictures and objects. By considering the importance of this requirement, for the academic year 2019-2020 FAMIN has distributed educational aids for various classes. This is to motivate and help the children to study better. Students will be using the educational materials for many years as they will be fixed in the respective class rooms.

The Headmaster, teachers and students expressed their thanks to all the contributors and the FAMIN team. and the walls of the verandas outside the classrooms. FAMIN has contributed towards all the expenses involved in providing the educational aids for the school children.
